Package Content

- 1 x FPS-3300
- 1 x Quick Installation Guide
- 1 x Drivers and User's Manual CD
- 1 x Power Adapter

Physical Installation

- 1. Make sure the print server is power OFF then connect printer to the Print Server's printer port.
- 2. Connect the LAN cable to the proper connector of the Print Server.
- 3. Connect the other end of the LAN cable to a 10Base-T or 100Base-TX hub or switch.
- 4. Connect the supplied Power Adapter.
- 5. Please make sure the POWER and LINK LED are light on.

Print Server Setup

In the following situation, you do not need to configure the Print Server. Just follow the procedures in below section to share your printer.

Windows users:

• Already installed TCP/IP protocol.

Apple Macintosh users:

• Already installed AppleTalk protocol.

Utility Installation

>> Windows Peer-to-Peer Printing

Install Peer-To-Peer Print Driver

- 1. Insert Drivers and User's Manual CD into the CD-ROM drive to initiate the autorun program. Once completed a menu screen will appear.
- 2. Click on "Install Utility" hyper link to initiate the installation. Or you can click the "Start" button and choose "Run". (Suppose "E" is your CD-ROM drive). When the dialog box appears, enter "E:\Utility\Setup.exe" and press enter key. You will see the dialog box as below. Please click "Next" to continue.
