1. Package Contents

Thank you for purchasing PLANET 24-Port 10/100Mbps + 2 Gigabit TP/SFP Combo Web Smart Switch, FGSW-2620CS. "Switch" mentioned in this quick installation guide means the FGSW-2620CS.

The box should contain the following items:

- Switch x 1
- Quick Installation Guide x 1
- User's Manual CD x 1
- Power Cord x 1
- Rubber Feet x 4
- Two Rack-mount Brackets with Attachment Screws x 1

If any item is found missing or damaged, please contact your local reseller for replacement.

2. Requirements

The FGSW-2620CS provides remote Web interface for management purposes; the following equipment is necessary for further management:

- Workstation is installed with Ethernet NIC (Network Interface Card)
- Workstations are subscribed to Windows 98/ME, NT4.0, 2000/XP, MAC OS9 or later, Linux, UNIX or other platforms compatible with TCP/IP protocols.
 - The above workstation is installed with Web Browser and JAVA runtime environment Plug-in.

Ethernet Port connection

Network cables - use standard network (UTP) cables with RJ-45 connectors.

It is recommended to use Internet Explore 7.0 or above to access the FGSW-2620CS Web Smart Switch.

3. Starting Web Management

PLANET FGSW-2620CS provides a built-in browser interface. You can manage the Switch remotely by having a remote host with Web browser, such as Microsoft Internet Explorer, Apple Safari or Mozilla Firefox.

The following steps shows how to startup the Web Management of the Switch. Please note the Switch is configured through an Ethernet connection. Make sure the manager PC must be set on the same IP subnet address, for example, the default IP address of the Switch is 192.168.0.100 (the factory-default IP address), then the manager PC should be set at 192.168.0.x (where x is a number between 1 and 254, except 100), and the default subnet mask is 255.255.255.0.

4. PLANET Smart Discovery Lite Utility

To easily list the FGSW-2620CS in your Ethernet environment, Planet Smart Discovery Utility from user's manual CD-ROM is an ideal solution.

The following install instructions guide you to running Planet Smart Discovery Utility.

1. Insert Planet Smart Discovery Utility in administrator PC.

2. Run this utility and the following screen appears.

9	PLANET Smart I	Discovery Lite									
Eð	Ede Option Help										
			U Refre	sh							
	MAC Address	Device Name	Version	DeviceIP	NewPassword	IP Address	NetMask	Gateway	Description		
	Select Adapter : 10.1.1.145 (00.80.06/FB-08.05)							Control Packet Force Broadcast			
Update Device Update Multi Update At Connect to Device											

3. Press "Refresh" button for the currently connected devices in the discovery list and the screen is shown as follows:

Ele Option Eleb () Referent										
	MAC Address	Device Name	Version	DeviceIP	NewPassword	IP Address	NetMask	Gateway	Description
