

24-Port IEEE 802.3af PoE Injector Hub

Quick and Easy PoE Network Deployment

PLANET POE-2400 is a 24-port IEEE 802.3af Power over Ethernet Injector Hub, which complies with IEEE 802.3, IEEE 802.3u and IEEE 802.3af standards. With 24 10/100Base-TX Fast Ethernet ports, this device supports full 48VDC power for any remote IEEE 802.3af powered devices (PDs) like wireless LAN access point, IP phone, and IP camera. Supporting power supply of 220 watts, the PoE-2400 provides sufficient power to 24 remote PD devices.

The POE-2400 is installed between a regular Ethernet switch and the powered devices, injecting power without affecting the data transmission. It offers a cost effective and quick solution to upgrading network system to IEEE 802.3af Power over Ethernet system without replacing the existing Ethernet switch.

Easy Cabling installation

The POE-2400 is installed between a regular Ethernet Switch and the powered devices; it injects power to the PDs without affecting data transmission performance. It offers a cost effective and quick solution to upgrading network system to IEEE 802.3af Power over Ethernet system without replacing the existing Ethernet switch. There are 48 RJ-45 STP ports on the front panel of the POE-2400, of which the 24 ports are on the lower stack function as "Data input" and the other 24 ports are on the upper stack function as "PoE (Data and Power) output". The 24 "PoE output" ports are also the power injectors that transmit DC voltage to the CAT 3/4/5/5e/6 cable and transfer data and power simultaneously between the Injectors and Splitters.

Friendly, Simple Web Management Interface

To efficiently manage the powered devices, POE-2400 provides web management interface in which administrators can use the functions including port enable/disable, port priority, system configuration and user name / password change, and with smart features for powered device. The PoE injector hub can auto detect the power status of each port and show messages on its Web management interface. These features also provide a cost-effective way to manage the device via Internet whenever you are at work or at home.

Interface

- 48-Port RJ-45 STP
 - 24-Port "Data input"
 - 24-Port "Data + Power output"
- 1 10/100Base-TX Management port

PoE

- Complies with IEEE 802.3af Power over Ethernet Mid-span PSE
- Up to 24 IEEE 802.3af devices powered
- Supports PoE power up to 15.4 watts for each PoE ports
- Auto detects powered device (PD)
- Circuit protection prevents power interference between ports
- Remote power feeding up to 100m

PoE Management

- Total PoE power budget control
- Per port PoE function enable/disable
- PoE port power feeding priority
- Per PoE port power limit
- PD classification detection

Management

- Web interface for remote management
- Firmware upgrade through Web interface
- PLANET Smart Discovery utility
- SNMP Trap for alarm notification of events

Hardware

- 19-inch rack mountable; 1U height
- Reset button for reset to default setting and system reboot
- LED indicators for PoE ready, PoE activity

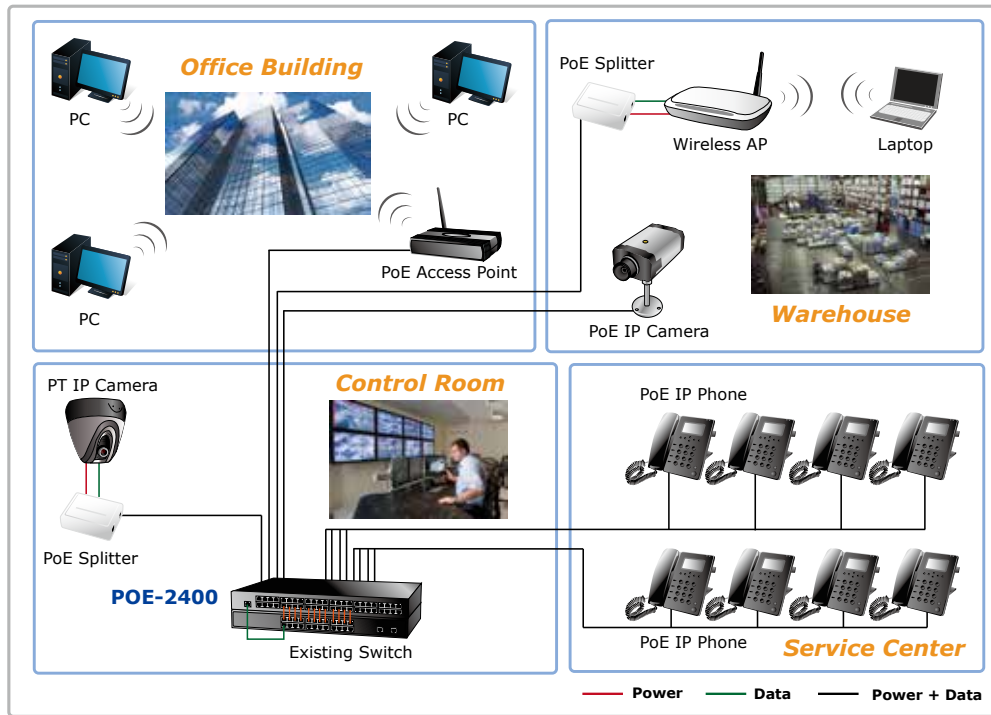

Standard Compliance

- IEEE 802.3 10Base-T
- IEEE 802.3u 100Base-TX
- IEEE 802.3af Power over Ethernet
- FCC Part 15 Class A, CE

Applications

PoE Injector Hub

For the places hard to find the power outlet, the PoE-2400 provides the easiest way to power up your PoE Ethernet devices. To control the power system of your networking devices, the PoE-2400 can directly co-work with PLANET PoE VoIP phone and PoE wireless AP products to build telephony and wireless integrated networking in the office. Furthermore, the POE-2400 can be directly connected to any third party IEEE 802.3af devices and Ethernet switch installed 100 meters away.

Specifications

Product	POE-2400	
Hardware Specifications		
Interface	Data Input Ports	24 x RJ-45 STP
	Data+Power Output Ports	24 x RJ-45 STP
	Management Port	1 x RJ-45; 10/100Base-TX, auto-negotiation, auto-MDI / MDIX
LED	System: Power x 1 (Green) Management Port x 2: 10/100 (Green / Orange) Per PoE Port: PoE In-use x 1 (Green)	
Network Cable	10Base-T: 2-Pair UTP Cat. 3, 4, 5, up to 100m (328ft) 100Base-TX: 2-Pair UTP Cat. 3, 4, 5, up to 100m (328ft) EIA/TIA- 568 100-ohm STP (100m)	
Dimensions (W x D x H)	440 x 200 x 44 mm (1U height)	
Weight	3.3kg	
Power Requirements	100-240V AC, 50/60 Hz	
Power Consumption	260 watts max.	
Operating Temperature	0 ~ 50 degrees C	
Storage Temperature	-40 ~ 70 degrees C	
Humidity	5 ~ 95% (non-condensing)	
Cooling	Fan x 2	
Power over Ethernet		
PoE Standard	IEEE 802.3af Power over Ethernet	
PoE Power Supply Type	Mid-span	
PoE Power Output	Per Port 48V DC, 350mA . Max. 15.4 watts	
Power Pin Assignment	4/5(+), 7/8(-)	
Power Budget	220 watts	
Management		

Management Interface	Web, PLANET Smart Discovery Lite
PoE Management	Power Limit by Priority and Total Limit Per port power enable/disable Power feeding priority Current usage and status Total power consumption
Management Feature	System / Management function setup Web firmware upgrade SNMP Trap for alarm notification of events
Standards Conformance	
Standards Compliance	IEEE 802.3 10Base-T Ethernet IEEE 802.3u 100Base-TX Fast Ethernet IEEE 802.3af Power over Ethernet
Regulation Compliance	FCC Part 15 Class A, CE

The specifications are for POE-2400 hardware version 2 only.
