## 1. PRODUCT DESCRIPTION

### Powering the Digital Transformation with EtherCAT

PLANET IECS-1116-DI is an industrial EtherCAT slave I/O module equipped with the EtherCAT protocol for today's distributed industrial applications. The IECS-1116-DI provides high-density digital input channels and is protected with 3750 V DC isolation. Its compact size and DIN-rail mounting make installation in a cabinet easy. Pluggable terminal blocks and LED indicator help users to maintain and set up their system.

### Flexible Installation

The IECS-1116-DI is an ideal high-speed distributed system solution which provides quick installation, real-time connection status monitoring, and wide-ranging power input and operating temperature to improve work efficiency, making them suitable for the harsh environment. Besides, the module comes with 2 10/100BASE-TX RJ45 ports. Through the EtherCAT technology, a network of up to 65,535 devices can be supported without the limitation of the type of topology -- line, bus, tree, star or any arrangement -- being used.

### **Synchronization**

An EtherCAT slave is an electronic device that carries out cyclical sequences of calculations and/or data copying tasks at a certain interval (cycle). The EtherCAT slave working cycle (e.g. in the range of a few  $\mu$ s up to several ms) can be derived from different sources. EtherCAT node can measure time difference between leaving and returning frame. With distributed clocks, EtherCAT can realize a precise synchronization time of  $<1\mu$ s between each slave module.

### **Convenient and Reliable Power System**

The IECS-1116-DI is equipped with one 3-pin DC power input connector with screws for power supply installation. With power magnetic protection design, it can avoid the device burnout due to wrong wiring. In addition, it also possesses an integrated power supply source with wide-ranging voltages (9 to 48V DC) for worldwide high availability applications.

### **Environmentally Hardened Design**

With the IP30 metal industrial case, the IECS-1116-DI provides a high level of immunity against electromagnetic interference and heavy electrical surges which are usually found on plant floors or in curb-side traffic control cabinets without air conditioning. It features a ventilated construction in which a cooling fan is not necessary, thereby making its operation noiseless. Being able to operate under the temperature range from -40 to 75 degrees C, the IECS-1116-DI can be placed in almost any difficult environment.

## 2. PRODUCT FEATURES

- Built-in isolated 16 digital inputs
- 2 x RJ45 bus interface
- LED indicators for the input status
- Removable terminal block connector
- 9 ~ 48V DC wide input voltage range
- Supports EtherCAT Distributed Clock (DC) mode and SyncManager mode
- EtherCAT conformance test tool verified

### 3. PRODUCT SPECIFICATIONS

#### 3.1 Component Specifications

<b>Controller</b>	Microchip LAN9252
<b>EEPROM</b>	AT24C512C-SSHM-T

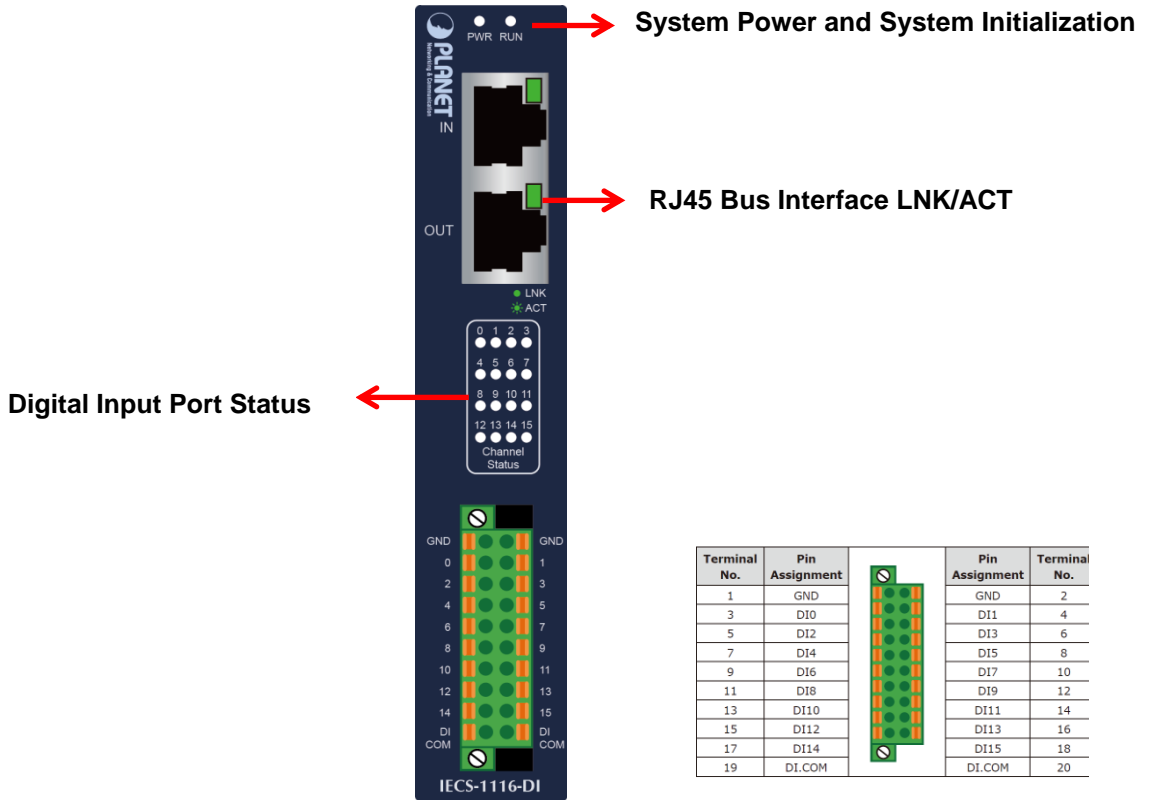

#### 3.2 Functional Specifications

<b>Product</b>	<b>IECS-1116-DI</b>	
<b>Digital Input</b>		
<b>Channels</b>	16	
<b>Input Type</b>	Wet (sink/source) / Dry (source)	
<b>Wet Contact</b>	<b>On Voltage Level</b>	3.5~50V
	<b>OFF Voltage Level</b>	4V max.
<b>Dry Contact</b>	<b>ON Voltage Level</b>	Close to GND
	<b>OFF Voltage Level</b>	Open
<b>Photo Isolation</b>	3750 VDC	
<b>Communication Interface</b>		
<b>Connector</b>	2 x RJ45	
<b>Protocol</b>	EtherCAT	
<b>Distance between Stations</b>	Max. 100m (100BASE-TX)	
<b>Data Transfer Medium</b>	Ethernet/EtherCAT cable (min. cat5), shielded	
<b>Power</b>		
<b>Input Voltage Range</b>	9~48V DC	
<b>Power Consumption</b>	4W max.	
<b>Mechanical</b>		
<b>Dimensions (W x D x H)</b>	32 x 87 x 135 mm	
<b>Installation</b>	DIN-rail and wall mounting	
<b>Case Material</b>	IP30 metal	
<b>Environment</b>		
<b>Operating Temperature</b>	-40~75°C	
<b>Storage Temperature</b>	-40~75°C	
<b>Relative Humidity</b>	5~95% (non-condensing)	

### 3.3 Physical Specifications

Dimensions (W x D x H)	32 x 87 x 135 mm
Weight	390g (gross weight)

➤ **Front View**

Terminal No.	Pin Assignment	Pin Assignment	Terminal No.
1	GND	GND	2
3	DI0	DI1	4
5	DI2	DI3	6
7	DI4	DI5	8
9	DI6	DI7	10
11	DI8	DI9	12
13	DI10	DI11	14
15	DI12	DI13	16
17	DI14	DI15	18
19	DI.COM	DI.COM	20

**LED Status:**

**System**

LED	Color	Function	
PWR	Green	Light	Power is activated.
		Off	Power is not activated.
RUN	Green	Light	The device is in the state of operation.
		Single Flash	The device is in the state of operation without risk.
		Blinking	The device is ready to be operated.
		Off	The device is in the sleep mode

**Per 10/100TX RJ45 Port (Port Input/Port Output)**

LED	Color	Function	
LNK/ACT	Green	Light	Indicating that the port is linked up.
		Blinking	Indicating that the module is actively sending or receiving data over that port.
		Off	Indicating that the port is linked down.

**Per Digital Input LED**

LED	Color	Function	
DI (0~15)	Green	<b>Light</b>	Input voltage is higher than the upper switching threshold voltage.
		<b>Blinking</b>	Indicating network packet delivery.
		<b>Off</b>	Input voltage is below the lower switching threshold voltage.

**Top View**

**Three-view Diagram**

Unit: mm

### 3.4 Environmental Specifications

#### Temperature

<b>Cold Boot</b>	-40 ~ 75 degrees C
<b>Operating</b>	-40 ~ 75 degrees C

#### Operating Humidity

<b>Operating</b>	5 ~ 95% (non-condensing)
<b>Storage</b>	5 ~ 95% (non-condensing)

### 3.5 Electrical Specification

<b>Device Input Voltage</b>	9-48V DC, 0.5A max.
-----------------------------	---------------------

### 3.6 Regulatory Compliance

CE, FCC, RoHS, WEEE

### 3.7 Reliability

MTBF> 50,000hrs @ 25 degrees C

### 3.8 Basic Packaging

- 1 x IECS-1116-DI Unit
- 1 x User Manual
- 1 x Wall-mount Kit

### 3.9 Package Information

<b>Dimensions (W x D x H)</b>	205 x 144 x 46 mm
<b>Weight</b>	490g
<b>Carton Dimensions (W x D x H)</b>	430 x 310 x 260 mm
<b>Carton Weight</b>	9.8kg
<b>Carton Unit</b>	20pcs in one carton
