Hardware Installation

Step 1. Installation

Option 1: Tilted Stand on the desktop. Take the stand and hook it on the back of the phone. There are two angles for your selection.
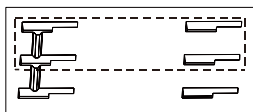

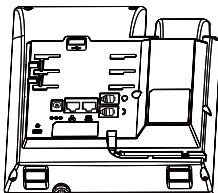

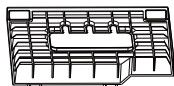

A

B

A

B

Step 2. Connecting to the Device

Please connect PoE network, PC and handset to the corresponding ports as described in the diagram below.

| Index	Description
①	**Power port:** Power requirement 5V 600mA
②	**Internet port:** Connect to the Intranet (Only Intranet port supports PoE. Connect to an IEEE 802.3af/at PSE device such as 802.3af injector/hub or 802.3af/at PoE switch.)
③	**PC port:** Connect to the computer
④	**Headset port:** External RJ9 earphone
⑤	**Handset port:** Connect to IP phone handset

Note

1. The VoIP phone also supports IEEE 802.3af/at. PoE Be reminded to power either from AC adapter or PoE switch.

2. The AC adapter is not included.

Starting Web Management

Step 1. Computer Network Setup

Set your computer's IP address to 192.168.0.x, where x is a number between 2 and 254 (except 1 where is being used for the phone by default). If you don't know how to do this, please ask your network administrator.

Step 2. Login Prompt

Use Web browser Microsoft Edge , Chrome, Firefox, or Safari (for Mac) to connect to **192.168.0.1** (Type this address in the address bar of Web browser.)

You'll be prompted to input user name and password: **admin** and **123**.

Default IP address: **192.168.0.1**
Default user name: **admin**
Default password: **123**

Further Configuration

For detailed configuration, please check user's manual which you can download from the website.
