

# Wireless Presentation Gateway

Free from the connection between your PC and the projector during the presentation. PLANET is glad to introduce our new product - Wireless Presentation Gateway, the WPG-100. With this device, you can locate your PC and projector anywhere in the presentation room and free from the connection.

Providing Ethernet interface, users can access to the WPG-100 to present their document in the meeting via existing networking. Best of all supports 802.11g Access Point function, the presenters can access to the projector which fixed on the roof via the WPG-100 without any wired or extra access point. In addition to this, with multi-user support, you can have a master PC to handle many presenters to transfer their screen to projector efficiently and easily.

Providing embedded windows-base utility, connected users can download the utility from the WPG-100 web screen quickly. No need for additional CD-ROM or floppy utility installation, this easy-to-download utility provides the most convenient way for the presenter or visitor to present document in seconds. Expel from the nonplussed connection and switching NB's LCD/CRT for your presentation, now, just go to the conference room, set up the notebook, connect to the Wireless Presentation Gateway - the WPG-100 (wired, or best of all, wirelessly), install the utility, and then, start up your presentation.

Not only projector, you can also connect the WPG-100 to LCD TV, monitor or the device that has support VGA D-Sub connector to demo your document page by page. With the WPG-100, you don't need to connect and disconnect your PC to different device. Document display, and PowerPoint presentation is just a click away.

## KEY FEATURE

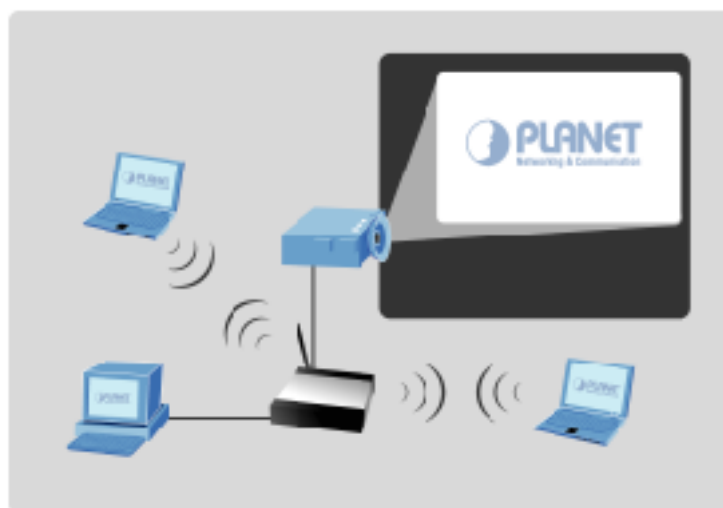

- Compliant with IEEE 802.3/802.3u, IEEE 802.11b/g
- Provides more flexibility for user to locate their PC and projector
- Provides embedded windows-base utility for connection/screen projection
- Easy configuration with few steps
- Multi-User presentation function. Allow a master PC to control all the users in the meeting room to present their document
- On screen key codes for secured connection. Only users in the room can get the privilege for presentation
- Supports DHCP Server. Users can connect to this device and obtain an IP address automatically for presentation
- Compatible with most of the projectors and monitors
- Supports Web configuration
- Plug & Play

**SPECIFICATION**
**Product** Wireless Presentation Gateway

<b>Model</b>	WPG-100
<b>Wired Interface</b>	
<b>Media Interface</b>	1 x RJ-45 UTP
<b>Standards</b>	IEEE 802.3, 10Base-T, IEEE 802.3u, 100Base-TX; Auto-MDI/MDI-X
<b>Cabling</b>	Category 5/5e or above, 2-pair
<b>Wireless Interface</b>	
<b>Frequency</b>	2.4 to 2.4835 GHz (ISM Band)
<b>Standards</b>	IEEE 802.11b; IEEE 802.11g
<b>Encryption</b>	64/128-Bit WEP
<b>Data Rate</b>	802.11b: 1, 2, 5.5, 11Mbps 802.11g: 6, 9, 12, 18, 24, 36, 48, 54Mbps
<b>Output Power</b>	14 dBm (max)
<b>Antenna Connector</b>	1 x RP-SMA
<b>General</b>	
<b>LEDs</b>	3; LAN, WLAN, PWR
<b>Cabling Type</b>	10Base-T UTP Cat 3 or better 100Base-TX UTP Cat5 or better
<b>VGA Connector</b>	D-Sub (15-pin)
<b>VGA Resolution</b>	1024 x 768
<b>Frame Rate</b>	20 fps
<b>Dimension (L x W x H)</b>	138 x 112 x 37 (mm)
<b>Weight</b>	350g
<b>Power Input</b>	5V, 2.5A
<b>Environmental Specifications</b>	Operating Temperature : 0~45 Degree C Storage Temperature: -10 ~ 60 Degree C Operating Humidity: 0~90% Storage Humidity: 0~90%
<b>EMI</b>	CE, FCC Class B

**APPLICATIONS**

With the WPG-100, the connection between Projector and PCs will become easily, either invisible through wireless or just an UTP connection. You can connect to the projector anywhere in the presentation room; no matter connected by wired or wireless.
